Summary

Full-Stack Developer and Computer Science graduate (VTU, 2026) who builds AI-powered web products from database schema to deployment. Currently building **Outpost**, an agentic collaborative workspace with real-time multiplayer editing, multi-tenant authentication, and usage-based billing using **Next.js**, **TypeScript**, **Google Gemini**, and **PostgreSQL**. Strong foundation in **React**, **Node.js**, **REST APIs**, and data modeling, with a keen interest in **AI agents**, backend engineering, and system design. Seeking a full-stack or software engineering role to build reliable, user-focused products.

Projects

Outpost – Agentic AI Collaborative Workspace Live Demo | GitHub | In Progress

- Designing and building an agentic collaborative workspace where one AI agent drives **2 live surfaces** at once, an infinite canvas and a rich-text document, generating **3 diagram types** (flowcharts, architecture diagrams, ERDs) alongside technical specs, using **Next.js**, **TypeScript**, **Google Gemini**, **Vercel AI SDK**, **tldraw**, and **BlockNote**.
- Built real-time multiplayer collaboration with live cursors and simultaneous editing using **Yjs**, **Supabase Realtime**, and a dedicated **Cloudflare Worker** for canvas sync, along with custom interactive ERD shapes whose relationship connectors snap to table rows.
- Implemented a multi-tenant architecture with **Clerk Organizations**, role-based access, and **4 billing tiers** (Free, Pro, Team, Enterprise) with monthly prompt quotas, plus a **4-stage Kanban** workspace board, public share links, and PDF export, backed by **Prisma** and **PostgreSQL**.

Skills

Languages: TypeScript, JavaScript (ES6+), Python, SQL, HTML, CSS
Frontend: React, Next.js,Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases & ORM: MongoDB, PostgreSQL, MySQL, Supabase, Prisma
Tools: Git,Docker

Education

Visvesvaraya Technological University (VTU), Bengaluru **2022 – 2026**
→ **Bachelor of Engineering** in **Computer Science and Engineering**, Acharya Institute of Technology

Defense Public School, Jaipur, Rajasthan **2022**
→ Class XII

Defense Public School, Jaipur, Rajasthan **2020**
→ Class X

Certifications

- **Introduction to Agent Skills** – Anthropic, Mar 2026 — Credential
- **Introduction to Model Context Protocol (MCP)** – Anthropic, Feb 2026 — Credential
- **Preparing for Your Associate Cloud Engineer Journey** – Google, Oct 2025 — Credential
- **Building Generative AI Skills for Web Developers** – LinkedIn Learning, Sep 2025 — Credential
- **Web Development with HTML, CSS, JavaScript Essentials** – Coursera, Apr 2024 — Credential

Achievements

- Built a HackerRank Orchestrate algorithmic problem-solving suite with automated code-execution pipelines, focused on data structures with optimal **time complexity**.
- Open-sourced Outpost under the GPL-3.0 license with documented setup, CI, and a live deployment.
